

2011/2012 Fruit and Vegetable Resource Guide

The Ontario Fruit and Vegetable Growers' Association's second bi-annual, industry-wide, universal guide assists farmers in finding companies and organizations within the fruit and vegetable sector.

The Ontario Fruit and Vegetable Growers' Association is bringing the industry together, again – and you can help. If you are interested in being listed, FREE of charge, merely fill out the information below and fax it back to 519-380-0011 .

This resource guide will be sent out via The Grower throughout Canada, providing fruit and vegetable farmers with a valuable contact tool for future reference. While keeping it as simple as possible, the guide will be broken into 12 sections for ease of management and accessibility for the farmers using it.

This is one booklet that will always be on-hand with fruit and vegetable farmers in Canada – count on it.

The sections for the guide are as follows (please circle each applicable section for your business):

- | | | | |
|-----------------|-------------|---------------|--------------------|
| Equipment | Pollination | Seed | Rootstock |
| Irrigation | Greenhouse | Packaging | Container |
| Crop protection | Fertilizer | Miscellaneous | Farm Organizations |

It's literally a "Who's Who" for the fruit and vegetable industry. Don't be left behind. Get your information in today.

For advertising in the guide, contact Herb Sherwood who will be happy to explain other options aside from the FREE listing.
